

Upgrade today Get €5,000 off Artec Leo when you trade in ANY 3D scanner

In the market for a next-generation 3D scanner?
Ready to embrace sustainability?
If so, our new trade-in offer may have come just in time
to help you get hold of a truly revolutionary device,
at its best price to date!

For a limited time, you can now trade any 3D scanner you own, entry-level
or high-end, for a **very special discount** on Artec 3D's groundbreaking AI-powered Leo.

Contact us at sales@artec3d.com for details.

Artec 3D

€5,000 off

How to trade in for €5,000 off

Whether you already have an Artec 3D device, or you own a previous-gen 3D scanner from another brand and you're looking to upgrade, we're ready to help you take the next step.

Upgrading is easy. Simply get in touch, provide proof of purchase,* and we'll send you a shipping label, so you can post us (or one of our authorized resellers) your unwanted 3D scanner.

Don't worry about technology or manufacturer. As long as it's a 3D scanner, and you're the owner and not a reseller, we're here to help you repurpose it!

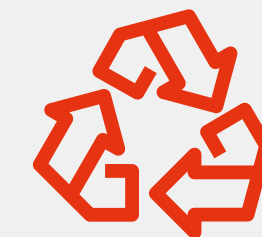

If you consider your device to be surplus to requirements, send it to us and **get €5,000 off** a Leo upgrade.

Sustainability

If you're no longer using a 3D scanner, or it's not fit for purpose anymore, **don't throw it away** or let it gather dust. Send it to us instead, and we'll make sure it's taken care of responsibly.

At Artec 3D, **we model our business with sustainability in mind**: Reduce, Reuse, and Recycle is a strategy we know is the way forward for advanced technologies.

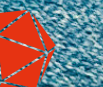

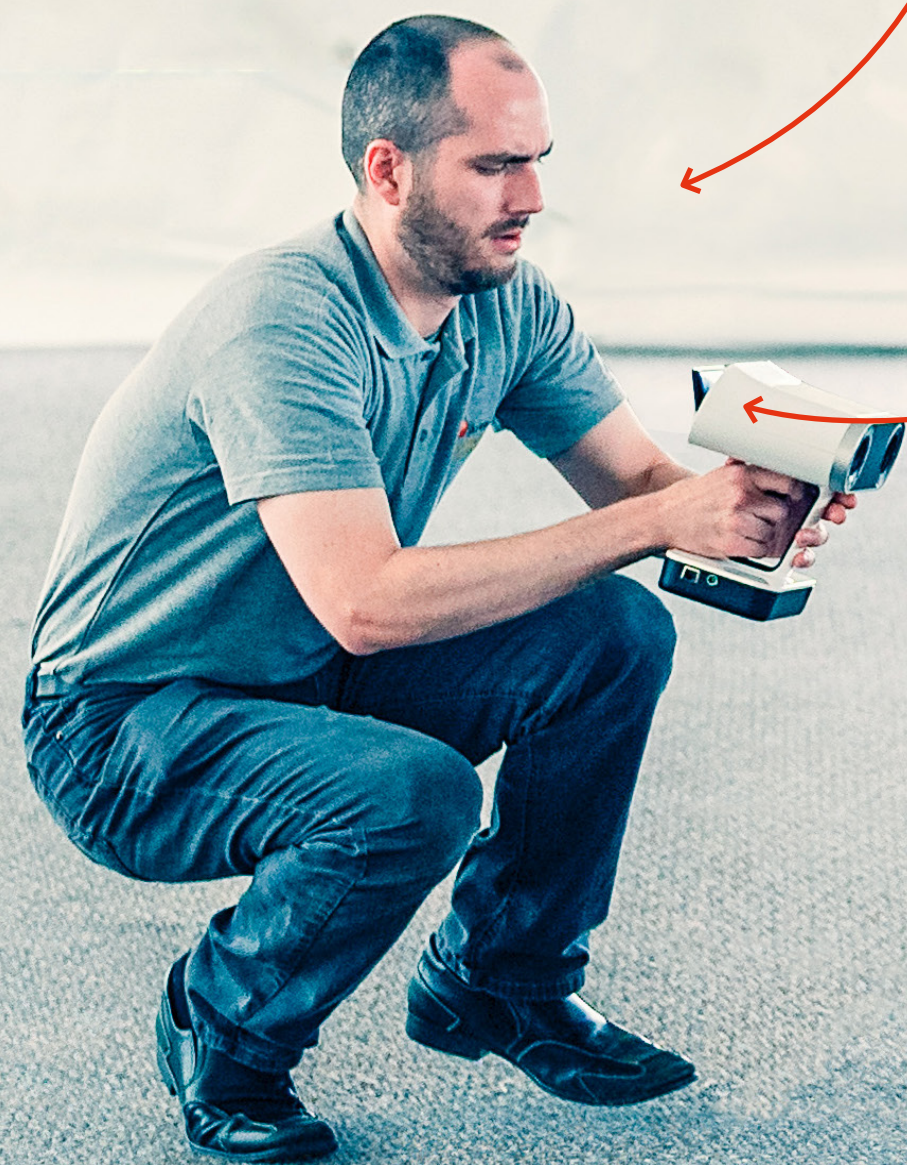

Why Artec Leo?

Embrace the world's first wireless, AI-driven 3D scanner to rapidly capture objects with **true freedom**.

Ready, set, scan! Leo's color display truly takes 3D scanning to the next level, by providing real-time data feedback and **freeing you from PC monitors**.

Harness Leo's AI supercomputer to accelerate your scanning workflow by **only capturing the data you need**.

Deploy Leo's HD Mode to scan even **the most difficult-to-capture surfaces** in stunning resolution.

Interested in finding out more?

Got any questions about our trade-in offer or anything else related to Artec Leo? Feel free to contact one of our dedicated resellers, or reach us directly at sales@artec3d.com.**

** To take advantage of our offer, you need to have valid proof of purchase for the 3D scanner you want to trade in. Supporting documents must include matching product details, such as model, serial number, and proof of ownership. Trade-in applications must also be supported with proof of identification.*

*** Only one discount can be applied per Leo. Offer includes the Leo, Leo Education, and Leo Premium packages. Bundles not included. Subject to change, the promotion is valid until June 30, 2023.*
