

Artec Academy

Become a 3D scanning expert

Join Artec Academy and take your first step towards becoming a 3D scanning expert today

So, you've got yourself a shiny new Artec 3D scanner. Congratulations! But how do you know you're getting the most out of it? This is where Artec Academy can help.

Our learning platform offers one-to-one training for your entire team on everything from the basics to industry-specific tips. Pass an Artec Academy exam, and you even get a certificate to prove how you've taken your 3D scanning skills to the next level.

Harness 3D scanning's true potential

Whether you've just got into 3D scanning or you need a training top-up or refresher, Artec Academy has everything you need to capture with greater speed, confidence, and success.

Access tutorials from the minds behind Artec's technologies, covering the entire 3D scanning workflow, from technique to turning data into 3D models. Academy courses not only explain how these processes work, but test and improve your skills in real-life scenarios.

Get started

Learn the basics of handling, safety, and creating scan-friendly environments for Artec devices, including the Artec Leo, Eva, and Space Spider – and there's more to come!

Get engaged

Participants engage in active learning, getting access to vital live tuition and taking quizzes after each module, to ensure they understand how to put training into practice.

Get specific

Access training tailored to industry needs, including a forensics course dedicated to crime investigation, and other industry-specific courses are on their way.

How Artec Academy can help you

- Mix theory and practice via all-important live training sessions with experts from Artec's Gold-certified resellers, and exercises designed to test learners' full range of skills.
- Once you've invested in the power of Artec 3D scanning, you can ensure that you're fully utilizing your device, and your business is getting the best return possible.
- Reward learners that pass rigorous exams for their hard work with a certificate they can celebrate and share with colleagues, as well as industry partners.

Tailor your Artec training package

Not everyone uses 3D scanning in the same way, and inevitably some will need more training than others. Recognizing this, Artec Academy has been launched in three packages: Express, Standard, and Extensive, so you can pick the one that best meets your training needs.

- Get live training and feedback from a 3D scanning expert over two, four, or eight-hour online sessions with our Express, Standard, or Extensive packages.
- Once learners have chosen and subscribed to a course from the Artec Academy catalog, they can go back and review lessons whenever suits.
- No matter which package you pick, learners get a personalized certificate for passing a course, so they can track and celebrate their training as they progress.

Express

Artec Academy course access
2-hour live call or meeting
Artec Academy Certificate

Standard

Artec Academy course access
4-hour live call or meeting
Artec Academy Certificate

Extensive

Artec Academy course access
8-hour live call or meeting
Artec Academy Certificate

FAQ

How many people can get trained on a single subscription?

Up to five learners can pass courses and get certified with each subscription purchased.

Who hosts the live training sessions on Artec Academy courses?

To ensure that you only get 3D scanning training from the very best, Artec Academy live meetings and calls will only be available from Gold-certified Artec 3D resellers.

Where can I log into Artec Academy and start training?

Learners can access Artec Academy anywhere in the world and start training remotely at any time they wish. At launch, the platform features English subtitles, with more languages set to be supported in the near future, so you can make training uniform across your business.

Interested in finding out more?

Got any questions about our Artec Academy courses or anything else related to our 3D scanners? Feel free to contact one of our dedicated resellers, or reach us directly at sales@artec3d.com.
